Identify strong

## 1. CUSTOMER SEGMENT(S)

CS

Who is your customer? i.e. working parents of 0-5 y.o. kids

The main customers for our project are:

- Persons who are seeking employment
- Persons that recruit job candidates

## 6. CUSTOMER CONSTRAINTS

Skill/Job recommender

What constraints prevent your customers from taking action or limit their choices of solutions? i.e. spending power, budget, no cash, network connection, available devices.

- Concern about misuse of personal information
- Worry about unreliable connections
- Inadequate product knowledge
- Potential Scam
- Time consuming

## 5. AVAILABLE SOLUTIONS

Which solutions are available to the customers when they face the problem or need to get the job done? What have they tried in the past? What pros & cons dothese solutions have? i.e. pen and paper is an alternative to digital notetaking

Pros	Cons	
Promotion of people's sk	killset Delivering false information	
Marketing of company	Occurrence of fraudulent activity	
infrastructure		
Cultivate commercial	Intense competition	
relationship	·	

## 2. JOBS-TO-BE-DONE / PROBLEMS

TR

EM

Which jobs-to-be-done (or problems) do you address for your customers? There could be more than one; explore different sides.

- Create a platform to facilitate job searching
- A platform to make it simpler to identify people with the necessary skills
- Make the job-filtering process simpler
- Profile with safe personal data

What triggers customers to act? i.e. seeing their neighbour installing solar

panels, reading about a more efficient solution in the news.

## 9. PROBLEM ROOT CAUSE

the back story behind the need to do this job?

What is the real reason that this problem exists? What is

i.e. customers have to do it because of the change in regulations.

What does your customer do to address the problem and get the job done? i.e. directly related: find the right solar panel installer, calculate usage and benefits; indirectly associated: customers spend free time on volunteering work (i.e. Greenpeace)

Jobs that are listed on unreliable platforms may be fraudulent

Companies fail to disclose their true infrastructure

Some job portals want payment in advance of the job starting.

- Users post false credentials
- Users pretend to have expertise in a skillset they lack

## 7. BEHAVIOUR

When Users apply for fraudulent jobs, they get unhappy due to wasted time

Users were not satisfied when platforms allowed hirers to post jobs that were not real

Cheating during online recruitment process

apply for a position, employers

become irritated.

# When candidates with inadequate qualifications

## 8. CHANNELS of BEHAVIOUR

10. YOUR SOLUTION

If you are working on an existing business, write down your current solution first, fill in the canvas, and check how much it fits reality.

To develop an end-to-end web application which in default have a lot of current job openings through job search API out of which appropriate job will be recommended based on user skill set. At the same time students can develop their skills side by side with various courses and webinars offered by reputed organization. In addition to this a smart chat bot will be available for 24\*7 which can help users in finding the right job.

### 8.1 ONLINE

What kind of actions do customers take online? Extract online channels from #7

Apply for jobs
